

DO I NEED THIS SOFTWARE?

You need this application if you want to:

- Process payroll with ease
- Ensure accurate deduction and benefit calculations
- Have unlimited set up options when adding employees
- Save time and reduce costs

WHAT WILL THIS APPLICATION DO FOR ME?

Easypay allows you to easily process your payroll. You can set up an unlimited number of employees with any combination of pay type and pay frequency. As well, you can allocate each employee's expenses across multiple departments or to a single home department.

WHAT CAN I LOOK FORWARD TO WHEN USING THIS PROGRAM?

Straightforward Payroll Functionality:

- You will ensure the accuracy of your payroll records by allowing the system to calculate and apply deductions and benefits
- You will be able to perform cost accounting with the Easypay system
- You will please your employees with the ability to manually distribute their pay into multiple bank accounts at the time of transmission to the bank

- You will access history records for every cheque processed, providing you with excellent audit and reporting capabilities
- You can have up to 40 user-definable deductions unique to your organization

Seamless Integration:

- You will appreciate that Easypay interfaces with MuniSoft's General Ledger program
- Your program will interface with the direct deposit services of all major Canadian banks and credit unions

Valuable Add-Ons:

- You will have the option to add the Time Clock Interface module to your Easypay program — allowing you to import time clock records directly into your system
- You will save time and reduce paper costs by using Easystub — at \$5.00 per upload and \$0.05 per employee, you can upload paystubs to a secured location online where your employees can easily view and print their paystubs

Options Available: Time Clock Interface / Customizer Module and Easystub. To place an order, please visit our [Software Order Desk](#) on our website or email clientcare@munisoft.ca.
