

DO I NEED THIS SOFTWARE?

You need this application if you want to:

- Reduce paper, printing, and postage costs
- Satisfy contemporary customers
- Save valuable time and reduce manual labour costs
- Show your dedication to addressing environmental concerns

WHAT WILL THIS APPLICATION DO FOR ME?

With the eNotices for Receipting extension, not only will you save costs of printing, receipt forms, envelopes, and postage, but you will reduce the tedious, manual task of printing, stuffing, sealing and mailing receipts.

WHAT CAN I LOOK FORWARD TO WHEN USING THIS PROGRAM?

Helpful Options:

- You will impress your customers with personalized letterheads and your own municipality's logo
- You will attract additional interest to your eNotices using a watermark image
- You will automate the signing process, by uploading a file of your signature, saving you time and effort

Valuable Features:

- You can include extra attachments, adding municipal information pieces and promotional material

- You will have full control over the timing of eNotice sends
- You can print office copies of eNotices, if needed

Configuration options ensure ISP compatibility:

- You will stage email delivery at appropriate intervals, which will enable you to stay within your service provider's send limits

Extended abilities:

- You can be confident knowing your emailed receipts are locked from tampering

- You will save yourself and your employees valuable time
- You will use less paper and harm fewer trees
- You can blind copy eNotices to the municipality to keep record of the emails sent, if desired.

To place an order, please email clientcare@munisoft.ca. Your MuniSoft Overview document (accessible from RC>Help>About) will determine if you need to order eNotices for Sm, Md, or Lg. Please attach the Overview document to your order email.
